**One-piece, drop-in lav drain  
includes a replaceable  
grid strainer AND  
below-the-grid stopper**

IDEAL LAV

# Watco IdealLav™

Do away with unsightly bathroom sink drains like these above, photographed in high-end hotels.

IDEAL LAV

Easy one-piece drop-in installation—IdealLav installs through drain hole.

Slots on top of stopper enable easy rod installation.

Fits standard sinks with overflow.

Ideal for new installations or replacements.

Tube available in chrome plated cast brass or plastic.

- Chrome-plated cast brass SKU# 815-P-CP
- Plastic SKU# 715-P-CP

Removable, replaceable grid strainer keeps sink looking great.

Grid strainer is installed with O-ring; easily replaceable without removing drain.

Internal stopper seats below grid strainer and holds water overnight.

Grid strainer prevents hair and other objects from entering drain.

Grid strainer can be purchased separately.

Grid strainer available in two finishes:

- Chrome plated
- Brushed nickel
